November 2009

Tune In For Live Radio Interview with USFA:

Listen Live On NPR: United Sludge-Free Alliance will participate in a panel discussion on Baltimore, Maryland NPR station WYPR radio 88.1fm or stream live at www.wypr.org on Tuesday Nov. 3rd 1:00-2:00. "Midday with Dan Rodricks", radio host and Baltimore Sun columnist, will discuss food production and the environment in the Chesapeake Bay watershed.

Please Join Us:

'The Chesapeake Bay: Our Bay, Our Food Production, Our Responsibility' Nov. 7th, 2009 10:00-2:00 at Jarrettsville Gardens, Jarrettsville, MD. This free educational seminar, hosted by Peach Bottom Concerned Citizens Group, Inc. – www.pbccg.com - , will present a variety of speakers, including United Sludge Free Alliance founder Darree Sicher, discussing how our actions impact the Chesapeake Bay Watershed area. What are the implications of sewage sludge on the Chesapeake Bay? Over 16.6 million people live within the Chesapeake Bay area, which covers over 64,000 square miles, encompasses 6 states and provides food & water for millions. The attached flyer provides all the information on this important and exciting program. Only 45 minutes from York, PA, one of the most sludged PA counties in the Chesapeake Watershed (1 hour from Baltimore, 1.45 hour from Washington, DC & Philadelphia). Lunch is included - call Maria today to reserve your seat: 717-456-5800.

Endorse Us & Donate!

Our group starts with 'united' and ends with 'alliance' - this means we need you and the organizations you participate in to learn more and speak out about the sewage sludge issue. Ask your group to endorse our work and become part of the network when you are educating others. And please make a donation and invite your group to make a donation! Every penny helps to cover the expenses. US-FA is a 501c3 non-profit organization and your donations are tax deductible.

United Sludge-Free Alliance is a non-profit volunteer group dedicated to educating people about the health and safety risks of sewage sludge to our food, water and communities. Learn more at www.usludgefree.org.
